EDUCATION

Phoenicia University (PU) – Sarafand, Lebanon

October 2023 – September 2026

Bachelor of Science in Computer Science

Key Courses: Algorithms and Data Structures, Parallel and Distributed Computing, Operating Systems, Database Systems, Artificial Intelligence, Machine Learning, Software Engineering.

American University of Beirut (AUB) – Beirut, Lebanon

October 2021 – June 2022

Completed Freshman Year in Computer Science (Transferred)

Al Mabarrat – Jouaiya, Lebanon

Awarded in June 2021

Lebanese Baccalaureate in Sociology and Economics

PROFESSIONAL EXPERIENCE

Simigo – Lebanon – Software Development

August 2026 – Present

Intern

- Contributing to the development and maintenance of kiosk management applications and advertisement management dashboards, including responsive frontend interfaces and dashboard functionality.
- Working with APIs, application logic, data handling, device integration, and testing/debugging across development and physical kiosk environments.

DOOBOT (USA) – Remotely

July 2024 – December 2024

Web Development Department

Intern

- Assisted in developing and improving a responsive website using HTML, CSS, and JavaScript, including frontend functionality, debugging, and performance improvements.

Fresh Line – Tyre, Lebanon

March 2024 – August 2024

Sales Department

Sales Associate

- Operated SaaS-based POS systems, processed customer transactions, provided customer service, and supported day-to-day store operations.

PROJECTS

Evvara – Personal Life-Sync & Digital Time Capsule Application

July 2026 – August 2026

GitHub: <https://github.com/samira-farhat/evara>

- Designed and developed Evvara, a full-stack personal life-sync application for creating multimedia digital time capsules containing memories, predictions, accountability goals, and letters that remain locked until scheduled future dates.
- Built the cross-platform frontend using Flutter and Dart and backend using Django REST Framework, implementing timelines, chapters, reflections, multimedia handling, REST APIs, scheduled delivery, JWT authentication, email verification, password recovery, persistent login, and protected endpoints.

X-Pensa – Full Stack Application

August 2026

GitHub: <https://github.com/samira-farhat/expense-tracker>

- Collaborated in building X-Pensa, a full-stack personal finance platform for managing income, expenses, transactions, balances, and financial reports across web and mobile applications.
- Built the Node.js, Express, TypeScript, and MySQL backend with REST APIs, JWT/bcrypt authentication, validation, protected routes, and user-specific financial data; developed React/TypeScript web and Flutter mobile frontends with transaction management, search/filtering, persistent authentication, and financial analytics.

GitHub: <https://github.com/samira-farhat/gaitanalytica>

- Developed GaitAnalytica, an AI-powered gait analysis system using Python, OpenCV, and MediaPipe Pose to process walking videos, perform pose estimation and gait-cycle analysis, and calculate biomechanical metrics including knee ROM, step length, cadence, stride timing, symmetry, and walking efficiency.
- Built a Django REST Framework backend for video processing, session history, visualizations, and reports; integrated Google Gemini AI for metric interpretation and django-q2 for asynchronous analysis/report generation, with secure report sharing for healthcare professionals.

ML Classification Analysis for Breast Cancer Detection– PU**June 2026****GitHub:** <https://github.com/samira-farhat/breast-cancer-ml-project>

- Compared Logistic Regression, Decision Tree, Random Forest, SVM, and KNN using Scikit-learn with preprocessing, feature scaling, hyperparameter optimization, and comprehensive evaluation, achieving 98.2% accuracy with SVM.

Car Rental Management System – PU**January 2026****GitHub:** <https://github.com/samira-farhat/car-rental>

- Collaborated in a four-member team to build a Flutter, Python API, and MySQL car rental system for a local business with role-based access, inventory and real-time availability, authentication, reservations, payment processing, driver's license uploads, and automated business reports.

Malaria Cell Image Classification Using CNN – PU**January 2026****GitHub:** <https://github.com/samira-farhat/malaria-cell-classification-cnn>

- Developed a TensorFlow/Keras CNN using 27,558 microscopy images, applying preprocessing, GPU-accelerated training, and model evaluation to classify malaria-infected and uninfected cells with approximately 95% test accuracy.

Mobile Bookstore App – PU**March 2025 – June 2025****GitHub:** <https://github.com/samira-farhat/bookstore-app>

- Developed a Flutter mobile e-commerce application with API authentication, product browsing, wishlist, cart management, order tracking, state management, and local storage.

Database System for Hera Flower Shop – PU**March 2025 – May 2025****GitHub:** <https://github.com/samira-farhat/hera-flowershop-db>

- Designed a MySQL database system and Python Tkinter GUI for a real flower shop, covering requirements analysis, ER modeling, normalization, reporting, inventory, customers, suppliers, orders, loyalty, discounts, and pricing logic.

Nexus Student Hub – PU**November 2024 – February 2025****GitHub:** <https://github.com/samira-farhat/nexus-student-hub>

- Developed a responsive student-resource website using HTML, CSS, and JavaScript.

CERTIFICATIONS

Python Essentials 1 & 2 – Cisco Networking Academy**August 2023****Summer Camp Participant – Beirut Digital District (BDD)****July 2019**

SKILLS AND INTERESTS

Linguistic Skills: Fluent in English and Arabic.

- **Programming & Development:** Java, Python, C++, C, C#, JavaScript, TypeScript, Dart, SQL, Flutter, React, Node.js, Express.js, Django REST Framework, REST APIs, HTML, CSS, MySQL.
- **AI, ML & Computer Vision:** Scikit-learn, TensorFlow/Keras, CNNs, OpenCV, MediaPipe, NumPy, Pandas, model training/evaluation, data preprocessing.
- **Parallel, Data & Tools:** OpenMP, OpenCL, MPI, Hadoop, PySpark, Git/GitHub, Google Colab, Jupyter Notebook, Microsoft Office.

Hobbies: Reading, Basketball, Baking, Writing, Playing Ping Pong, Playing Padel.
